

OH, THE PLACES YOU'LL GO: LIFE AS AN OLE CLINICAL CHEMIST

Friday, 3/8
3:15 pm
RNS 310

Chemistry Seminar

With limitless career options available to you upon graduating with a degree in Chemistry from St. Olaf College, finding the right fit is a daunting task. Should I attend medical school or graduate school? How can I find opportunities to build a meaningful career abroad? What non-traditional career options exist for chemists? Come hear a panel of three Ole chemists at different stages of their journeys. Stanley Lo, Anna Merrill, and Hannah Brown share their paths from the good old days on the Hill to their current positions in the field of clinical laboratory medicine. Get ready to be inspired by the impact you can make on patients' lives through the lens of chemistry!

Hannah Brown '17
Clinical Chemistry Fellow
St. Louis School of Medicine
Washington University

Anna Merrill '10
Associate Director of Clinical Chemistry
Clinical Associate Prof of Pathology
University of Iowa Hospitals & Clinics

Stanley Lo '85
Prof of Pathology Medical College of Wisconsin
Associate Director Clinical Laboratories
Children's Wisconsin
